

Dr. Maria Tsoukas

Dr. Maria Tsoukas is the head of the Department of Dermatology at UI Health. Dr. Tsoukas specializes in the diagnosis, management, and treatment of patients who are at high risk for skin cancer and those with chronic immunosuppression or autoimmune diseases. She has a strong focus on non-invasive field therapies, photodynamic therapy, and skin laser therapy to treat benign and malignant skin conditions, and her clinical interests also include noninvasive skin rejuvenation using injectable botulinum toxin and fillers. Dr. Tsoukas' research focuses on photobiology/photodynamic therapy; laser tissue interactions and drug delivery; field cancerization therapies; and tissue repair. Dr. Tsoukas also serves as the Associate Head of Education Affairs and Residency Program Director in the Department of Dermatology.
